Projects

Point of Sale System

Streamlines transactions with customers and suppliers while managing inventory and finances.

Supply Chain Tracking System

Provides a comprehensive view of item movements as they progress through different production stages across multiple subsidiaries.

Inventory Tracking System

Tracks transactions between business, suppliers and resellers. Also manages the deliveries of products.

Ecommerce

Facilitates seamless online transactions, tracks orders, and offers valuable sales insights to businesses.

Company Profile Website

Enables businesses to customize their content with a user-friendly CMS, providing admins with the flexibility to update and manage webpages as needed.

Attendance App

Simple employee attendance tracking utilizing face recognition.

Electronic Direct Mail

Empowers businesses to reach their target audience directly through personalized email messages, promoting their brand and products.

Chat Bot

Offers a flexible and scalable chat bot solution that can take orders and respond to inquiries.
